

A strong tradition of customer satisfaction.

A division of OpTerra Energy, Sacramento-based Aircon Energy has successfully helped customers reduce energy and operating costs for more than thirty-five (35) years. Long established as a leading supplier of energy efficiency measures and onsite energy services, Aircon's highly qualified staff includes business developers, engineers, project managers, in-house installation technicians and experienced service professionals.

Turnkey project development and delivery

Aircon implements a wide range of projects and primarily serves as a general contractor, advocating for its clients. When project scope necessitates additional resources, Aircon engages qualified professionals in the counties where the work is located, helping to support local economies. Aircon is committed to delivering excellence — diligently overseeing each project with a focus on meeting client needs.

Proven expertise in providing efficient solutions

A licensed mechanical contractor with expertise in lighting, HVAC and cogeneration retrofits, Aircon offers full-service design and engineering capabilities. Aircon is certified to install and service Liebert equipment, and is well versed in Building Automation Systems, including Delta, CSI, Johnson Controls, Novar, Robert Shaw and Honeywell. The company is a member of ACCA, ASHRAE, IFMA, BOMA and IREM.

AIRCON ENERGY

A DIVISION OF OPTERRA ENERGY

A history of success

Aircon's success in comprehensive retrofit projects for existing buildings has led to reduced energy and operating costs for a wide range of public and private entities in California's health care, government, education and industrial sectors. Whether it involves redesign or replacement of lighting, heating, HVAC or other energy consuming equipment, Aircon knows how to achieve energy savings goals while maintaining occupant comfort.

"Aircon has been instrumental in helping us upgrade our systems and reduce our energy usage. They deliver what they promise with no surprises."

Cliff Price
Public Works Director
City of Soledad

Aircon has earned numerous awards for completed projects, including:

- > **San Luis Obispo Courthouse** — Best Public Facility Award
